Accreditation will be provided

Symposium

« The Critically Ill Newborn »
What about metabolic disease ?

Wednesday 26.09.2012

Invited Speakers

Prof. Dr. Johannes Häberle, Zurich
Prof. Dr. Jean-Marie Saudubray, Paris

Symposium

Dear colleagues and friends,

The neonatal units of the Université Libre de Bruxelles - ULB (Hôpital Erasme, Hôpital Saint-Pierre and Hôpital Universitaire Des Enfants Reine Fabiola - HUDERF), the Université Catholique de Louvain - UCL (Cliniques Universitaires Saint-Luc), and the Vrije Universiteit Brussel - VUB (UZ Brussel) are very proud to announce a symposium on inborn errors of metabolism with neonatal presentation.

An inborn error of metabolism can present in the newborn baby in a most unexpected way. For an optimal prognosis, it is often of critical importance that the disorder is recognized as soon as possible. An early diagnosis, however, is only possible if the clinician is aware of the possibility of a metabolic disorder. The goals of the meeting are to make a link between the newborn baby presenting with an acute illness and the metabolic disorders that can be responsible for it, to provide practical diagnostic tools to the clinicians for these specific circumstances, and to present up-to-date information on the possible urgent and longer-term treatments.

The meeting will give the opportunity to interact with prominent international and national speakers, and to enjoy the charms of our splendid capital, Brussels. It is an honor for us to invite you to this exciting event and we look forward to welcoming you in Brussels.

Organizing committee : "The Brussels NIC centers"

Prof. Dr. Filip Cools
Universitair Ziekenhuis Brussel (VUB)

Prof. Dr. Christian Debauche
Cliniques Universitaires Saint-Luc, Brussels (UCL)

Prof. Dr. Dominique Haumont
Hôpital Saint-Pierre, Brussels (ULB)

Prof. Dr. Anne-Britt Johansson
Hôpital Universitaire des Enfants Reine Fabiola,
Brussels (ULB)

Prof. Dr. Bart Van Overmeire
Hôpital Erasme, Brussels (ULB)

Program

15:30 Welcome

16:00 Introduction

Prof. Dr. Filip Cools
Universitair Ziekenhuis Brussel (VUB)

16:10 General Overview Of Inborn Errors Of Metabolism and Clinical Approach in Neonates

Prof. Jean-Maire Saudubray
Unité Neurométabolique – Hôpital Pitié-Salpêtrière
Paris - France

16:55 "What Do You Think?" -Clinical Cases

Prof. Dr. Philippe Goyens, Dr. Corine De Laet
Universitair Ziekenhuis Brussel (VUB)
Hôpital Universitaire des Enfants Reine Fabiola,
Brussels (ULB)

17:15 Coffee Break

17:35 The Neonate with Hyperammonemia – Diagnostic and Therapeutic Considerations

Prof. Dr. Johannes Häberle
Abteilung für Stoffwechselkrankheiten
Universitäts-Kinderspital - Division of Metabolism
Zürich - Switzerland

18:20 Metabolic Approach Of Seizures In Neonates

Prof. Dr. Marie-Cécile Nassogne
Cliniques Universitaires Saint-Luc, Brussels (UCL)

18:40 Cell And Stem Cell Therapy For Liver Based Inborn Errors Of Metabolism

Prof. Dr. Etienne Sokal
Cliniques Universitaires Saint-Luc, Brussels (UCL)

19:00 Walking Dinner

Registration

Before September 15th
On www.orphan-europe.be

Or return your registration on

- Fax : +32 (0)2 461 02 36
- Or e-mail : infobenelux@orphan-europe.be

And by transferring registration fee 50 €* to account :
